

## **BEREWICK ELEMENTARY SCHOOL**

**100,000 SqFt NEW CONSTRUCTION**  
**Scheduled Completion August 2009**  
Charlotte, NC

**BEREWICK ELEMENTARY SCHOOL**

This project will be a new elementary school located in the growing south east Charlotte area. The new 100k square foot facility is situated on 35 acres of wooded land. The extensive site work included fenced play areas, outdoor basketball courts, covered canopies and permanent water quality basins. The site will be graded in preparation for future baseball fields by the Parks and Recreation Department. The building structure will be load bearing block with structural steel. The exterior will be comprised of brick veneer, operable windows and a built-up roofing system. The project consists of two main portions-Building A is a two story classroom building with custom millwork and educational specialties, Building B is a high roof gymnasium and multipurpose facility which also contains a kitchen and cafeteria. The kitchen will include extensive food service equipment and exhaust systems. The project will go through a commissioning process to assure top quality installations. The project will be completed within twelve months of issuance of permit.
