

CINNABON at CAROWINDS

3,200 SqFt NEW CONSTRUCTION
Completed March 2005
Charlotte, NC

CINNABON AT CAROWINDS

Hendrick Construction has had the privilege to work with Paramount's Carowinds' staff to construct, or modify, seven patron attractions, keeping them attractive and functional to meet the changes required for each season. Finished in March of 2005, this complete ground-up construction of a new Cinnabon concession was completed just in time for the 2005 season. This particular project featured the craftsmanship of one of our talented on-staff field superintendents, along with the skills of a select team of subcontractors. In addition to the attractive and colorful detailed exterior, the interior was constructed to restaurant specifications. The concession facility included painting and store-front modifications in the adjoining space to bring the overall envisioned theme together. Personal attention to detail and quality craftsmanship provided finished products which will serve Paramount's Carowinds for years to come.
