

## **DR. LEE DENTAL OFFICE**

**2,500 SqFt** NEW CONSTRUCTION  
Completed April, 2005  
Charlotte, NC

### **DR. LEE DENTAL OFFICE**

This negotiated project consisted of a 2,500 square foot conversion in an existing medical plaza converting an existing podiatrist office to new dental space in East Charlotte. The scope included the addition of high end dental casework and fixturing which housed a new autoclave and medical grade gas lines to support nitrous oxide and oxygen. Challenges included demolishing the extremely thick floor slab and upgrades to utilities to support the customer's reused equipment.
