

PRINCIPAL FINANCIAL GROUP

25,000 SqFt CLASS 'A' UPFIT
Completed June, 2004
Charlotte, NC

PRINCIPAL FINANCIAL GROUP

This project was a 25,000 square-foot class 'A' complete upfit from shell space. All work had to be completed in an occupied office building with tenants above and below this upfit. Close coordination was required for logistics, deliveries and utility tie-ins. Custom carpet and trim work were integrated throughout the reception and conference areas. Custom lighting and interior glass accent the surrounding existing finishes. Extensive cabinetry was required in the support areas including the copy room, storage room and break areas. The project had to be completed within an eight week time frame.
