

## WEBB LIMITED

**1,300 SqFt** NEW CONSTRUCTION  
Completed July 2003  
Charlotte, NC

### WEBB LIMITED

This 3,000 square foot interior build-out was for a tenant space in an upscale shopping center (Phillips Place) in South Charlotte. Web limited is a haberdashery specializing in custom high-end men's clothing. This space was designed to showcase our client's clothing in a more formal fashion. The space was comprised of specialty custom wood trim and suit racking millwork, designed with high-gloss paint under back-lit ambient lighting. The flooring finishes throughout the space include custom hardwood, hard tile and carpet. Custom lighting complimented the various product displays in the store. Unique challenges of this project included the supply of our tenant's utilities into the space and precise measurement requirements to allow for owner-provided furniture and fixture placement. The project was completed in eight weeks.
