YOUR OFFICE USA

10,000 SqFt. INTERIOR UPFIT
Completed February 2004
Charlotte, NC

SOUTH PARK

This project was for the expansion of an existing Keyman office space to incorporate an adjacent tenant space. The reception and break areas were upgraded and enhanced to handle the increasing number of tenants. The project posed several challenges in integrating new finishes with existing office space design. The project included partial demolition to incorporate the new design scheme. Our Project Manager and Superintendent worked closely with our client to accommodate existing office areas which remained in use during construction.
